Author and Subject Indexes—Volume 21, 1986

Author Index

ACOSTA R Jr*: Left-sided weakness 10 months post-colostomy. 2:195
AFZELIUS BA: Disorders of ciliary motility. 3:73
AGARWALA BN: Pompe's disease in identical twins. 3A:146
ALBERTS WM: Fatigue, weight loss, and a large hilar mass. 7:17
ALEXANDER E: Metabolic acidosis: recognition and etiologic diagnosis. 1:100E
AMSTER LJ: Gentlewoman explorer in the dangerous trades. 4:206
ANDERSEN P*: Malignant diarrhea from the Third World. 5A:132
ANDING RH*: Hypercholesterolemia: new values, new strategies. 1A:112
ANDREOLI TE: Physiology in Medicine: the rheumatology series. (editorial) 8:10
ANDREOLI TE, OLSEN ML: Pulmonary series. (editorial) 1:8
ANDREWS DR, WARFIELD CA: Procedures used in the diagnosis of pain. 5A:108
ANDREWS MD*: Hoofbeats of a zebra in the emergency room. 10:124H
ANNAS GJ: Organ transplants: the need for rational policies. (editorial) 9A:7
ARCHIE D*: One year of wheezing, cough after pneumonia. 2:22
AREGO DE, KOCH SJ: Bacteriuria in patients with spinal cord injury. 3A:87. *See also* erratum 5A:16
ARNDT KA*: Alopecia: common and uncommon. 5A:19
ARNETT FC: HLA genes and predisposition to rheumatic diseases. 12:89
ASBILL MC, MARMARELIS PZ, BROWNSTONE PK: Two gay patients with demyelinating disorders. 5A:54
ATLAS SA: Atrial natriuretic factor: renal and systemic effects. 7:67
AVERY JA: Outpatient management of CA pleural effusion. 4:64A
BACDAYAN CB*: Recurrent breast cancer: an integrative CPC. 1:158
BAGSHAW MA: Management of localized prostate cancer. 12:73
BANITT PF, MUNSON AK: Addisonian crisis after thyroid replacement. 5:132
BAUER KA*: New insights into hypercoagulable states. 3:131
BEDELL SE: 'Do you want to be resuscitated?' (editorial) 1A:6
BENDINER E: 'Liberator of surgery from shackles of sepsis.' 6:126C
Paul Broca: adventurer in the recesses of the mind. 11A:104
Rush—patriot, partisan, prescient physician II. 1:85
Thomas Sydenham: 'the English Hippocrates.' 7:183
BENKOV KJ*: Nutritional support for hospitalized children. 4:179
BERKEN A: Team practice by subspecializing general internist. (editorial) 2:10
BERKMAN SA: Hematologic care of the surgical patient. 2:124DD
BERKMAN SA*: Hypercoagulable states and venous thrombosis. 12:88C
BHAGAVAN BS*: Postantibiotic fever, jaundice, dysuria. 3:148
BIRNBAUM PS, ARNDT KA: Alopecia: common and uncommon. 5A:19
BISNO AL: Staphylococcal endocarditis and bacteremia. 4:139
BLASS JP: Primary degenerative dementia. 5A:59
BOMAN BM, LEVIN B: Familial polyposis. 5:155
BORRELLI EF, WARFIELD CA: Occupational therapy for chronic pain. 8:36K
BOYAJIAN M*: Sub-Q heroin and cocaine addict with chills, fever, and trismus. 9:48
BRADY PG: Gallstone-induced pancreatitis and a stone-free gallbladder. 3:35
BRIGHAM KL*: Pulmonary edema. 5:87
BROWARSKY I*: Malignant diarrhea from the Third World. 5A:132
BROWN LW*: Recurrent seizures in a 'well-controlled' child. 9A:36
BROWNSTONE PK*: Two gay patients with demyelinating disorders. 5A:54
BUCKALEW VM Jr: Hyponatremia: pathogenesis and management. 11A:49
BUKANTZ SC: Acute severe asthma—the late-phase reaction and the continuing challenge. (editorial) 11:10
Life-and-death decisions. (editorial) 4:13
BULLOCK WE: Clinical significance of erythema nodosum. 3:102E
CALDRONEY RD: Heat-induced illness. 6:48M
CALLANAN DL, CHENG R, BROWN LW: Recurrent seizures in a 'well-controlled' child. 9A:36
CANNON-BABB ML, SCHWARTZ AB: Drug-induced hyperkalemia. 9A:99
CHAPPELL DA*: Hyperthyroidism in a healthy pregnant woman. 9:38
CHARACHE S: Advances in the understanding of sickle cell anemia. 2:173
CHARNAS L, PYERITZ RE: Neurologic injuries in boxers. 5A:30
CHARNOFF JA*: Aggressive treatment of an aggressive disease. 11:75
CHATTERJEE K: Thrombolysis in acute myocardial infarction. 4:117. *See also* letter 9:16
CHENG R*: Recurrent seizures in a 'well-controlled' child. 9A:36
CHERNIACK NS: Breathing disorders during sleep. 2:81
COBB DK: Mechanisms of resistance to extended-spectrum cephalosporins. 1:100T
CODY RJ*: Obese young woman with exertional dyspnea. 9A:88
COE FL, PARKS JH: Recurrent renal calculi: causes and prevention. 3A:49
COHEN AS: Primary amyloidosis: recognition and management. 1A:29
COHEN LE*: Scabies: diagnosis and management. 2:124A
COHEN SI: Somatoform disorders: symptoms and psychiatric implications. 6:165
CONWAY SR, WARFIELD CA: Traumatic neuralgias. 7:44A
COONEY TG*: Pressure sores: when prevention fails. 10A:14 (1985). *See* erratum 1A:14 (1986)
CRAIG CP*: Complications of urinary tract infections. 7:110C
CRAWFORD ED, DAWKINS CA: Diagnosis and management of prostate cancer. 3:159
CRAWFORD MH: Stepped-care therapy for angina pectoris? 11:164
DACSO CC, LOKEY R, WISNESKI V: Gas in the pelvis two months after laparotomy. 1A:40
DANOWITZ JS: Pain, increasing girth in healthy Japanese man. 10A:72
DANOWITZ JS, REZA R: Healthy young woman in respiratory distress. 6:200
DANTZKER DR: Physiology and pathophysiology of pulmonary gas exchange. 1:135
DAUGHADAY WH: Thyrotoxicosis after thyroidectomy: iatrogenic or factitious? 9A:73
DAWKINS CA*: Diagnosis and management of prostate cancer. 3:159
DEGROOT LJ: Management of thyroid nodules: how far have we come? (editorial) 10A:9
DE LA CHAPELLE A: Chromosome anomalies in hematologic malignancies. 8:121
DESIMONE PA*: AIDS: medical ethics grand rounds. 12:125
DESIMONE PA, MARTIN CA, BACDAYAN CB, MACDONALD JS, RIZZO FJ, ENGELBERG J: Recurrent breast cancer: an integrative CPC. 1:158
DEVITA VT Jr: Hematologic malignancies: non-Hodgkin's lymphomas. 9:103
DOSSETT BE Jr*: One year of wheezing, cough after pneumonia. 2:22
DROSSMAN DA: Patient with chronic undiagnosed abdominal pain. 11A:22
DUBUISSON D, WARFIELD CA: Neurosurgical procedures for nonmalignant pain. 1:118M
DUNCAN SR*: Disabling dyspnea of sudden onset. 12:103
DUNCAN SR, RIZK N, RAFFIN TA: Young woman with swollen arm, dyspnea. 11A:13
DWARAKANATH GK, WARFIELD CA: Pathophysiology of acute pain. 4:64B
EICKHOFF TC: Septic arthritis: a complex diagnostic puzzle. 8:159
EINHORN LH: Cancer of the testis: a new paradigm. 4:165
ELDRED L, GOULD R, KURLAND G: Healthy newborn girl with absent breath sounds, bradycardia. 3A:83
ENGELBERG J*: AIDS: medical ethics grand rounds. 12:125
Recurrent breast cancer: an integrative CPC. 1:158
FEDSON DS: Adult immunization: protocols and problems. 7:143. *See also* letter 9:18
FENSKE NA*: Scabies: diagnosis and management. 2:124A
Streptococcal and staphylococcal infections of the skin. 3A:41
FIELD JB: Hypoglycemia: a systematic approach to specific diagnosis. 9:187
FIELDS S*: Lethargy and confusion after total nephrectomy. 2:40L
FISHER DW: AIDS and Asclepiads. (editorial) 5:10
HMO—the newest 'wave of the future.' (editorial) 3:13
Hospital Practice at 20. (editorial) 10:13
Year-end report. (editorial) 12:13
FLETCHER SW, O'MALLEY MS: Clinical breast examination. 5A:80
FRANCKE U: Elusive chromosome anomalies. 5:175
FREEDMAN ML: Iron deficiency in the elderly. 3A:115
FREIREICH EJ: Hematologic malignancies: adult acute leukemia. 6:91
FROHLICH ED: When to treat mild hypertension. (editorial) 5A:9
GANTZ NM: Tuberculin skin testing: when and how to use it. 9A:25
GERLING B*: Obese young woman with exertional dyspnea. 9A:88
GERMAN DC, HOLMES EW: Gout and hyperuricemia: diagnosis and management. 11:119
GILCHREST BA: Geriatric skin problems. 9A:55
GIVENS JR, GOODMAN RC: Hirsutism and polycystic ovary syndrome. 10A:81
GLATT AE*: Aggressive treatment of an aggressive disease. 11:75
Second-generation cephalosporins. 3:158A

*Joint author

GLECKMAN RA: Acute bacterial sinusitis. 1A:92
GOLDBERG J*: Postantibiotic fever, jaundice, dysuria. 3:148
GOLDBERG RB*: Diabetic neuropathies: practical clinical implications. 10A:55
GOLDMAN L: Acute chest pain: emergency room evaluation. 7:94A
GOLDSCHMID S*: Malignant diarrhea from the Third World. 5A:132
GOLDSTEIN BJ, HANNA K: Bullous skin ulceration in man with myelofibrosis. 5:102
GOODMAN RC*: Hirsutism and polycystic ovary syndrome. 10A:81
GORELICK PB*: Rigidity and fever in two psychotic patients. 7:171
GORMAN ES, WARFIELD CA: Epidural and spinal opioids. 10A:13
Use of opioids in the management of pain. 6:48A
GOULD R*: Healthy newborn girl with absent breath sounds, bradycardia. 3A:83
GRABOYS TB: Ventricular arrhythmias: to treat or not to treat? (editorial) 11A:7
GRAHAM DY: Treatment of steatorrhea in chronic pancreatitis. 1:125
GREENBERG MS, GORELICK PB: Rigidity and fever in two psychotic patients. 7:171
GREENWOOD RD: Mitral valve prolapse in childhood. 8:41
Young man with acute palpitations. 4:164X
GROSSMAN RF*: Large neck node, silent chest mass. 4:79
GUPTA KL: Normal aging vs disease in the elderly. 3A:34
HAAKE DA, BERKMAN SA: Hypercoagulable states and venous thrombosis. 12:88C
HABER E: Antibodies in cardiovascular diagnosis and therapy. 2:147. *See also* erratum 7:166
HAHN TJ: Physiology of bone: mechanisms of osteopenic disorders. 8:73
HALLE AA III, ANDREWS MD: Hoofbeats of a zebra in the emergency room. 10:124H
HANCOCK EW: (*see* ECG Casebook)
HANNA K*: Bullous skin ulceration in man with myelofibrosis. 5:102
HARRIS ED Jr: Synovial inflammation in rheumatoid arthritis. 9:71
HARRIS JR: Management of localized breast cancer. 10:61
HIMELMAN RB: Fulminant hepatic failure six weeks postpartum. 7:105
HIMELMAN RB, CHAPPELL DA: Hyperthyroidism in a healthy pregnant woman. 9:38
HOLDER CD: Prolonged infection after valve replacement. 5:139
HOLDER CD, CRAIG CP: Complications of urinary tract infections. 7:110C
HOLLENBERG NK: Kidney in heart failure. 1:81
HOLMES EW*: Gout and hyperuricemia: diagnosis and management. 11:119
HOROWITZ D*: Paradoxical embolism after surgery. 4:159
HOWARD GF III: Evaluation of insomnia. 1A:16
HOWELL LP: Alcoholic woman who couldn't swallow. 3:48A
JAFFE HW*: AIDS: medical ethics grand rounds. 12:125
JOSEPH SC: Justice Department opinion on AIDS: another example of insensitivity. (editorial) 9:10
KANDEL G, GROSSMAN RF: Large neck node, silent chest mass. 4:79
KANDEL GP*: Toxic megacolon in ulcerative colitis: early diagnosis and management. 9:102A
KARIM AH, GOLDBERG J, KASSEL LE, BHAGAVAN BS: Postantibiotic fever, jaundice, dysuria. 3:148
KASSEL LE*: Postantibiotic fever, jaundice, dysuria. 3:148
KASSIRER JP, KOPELMAN RI: (*see* Clinical Problem Solving). *See also* letters 3:18, 9:16
KATTAN M: Emergency management of acute asthma. 11:81
KHOUZAM N: Cocaine user who looked like a bullfrog. 9:157
KILNER JF*: Good death: medical ethics grand rounds. 4:31
KINE GD, WARFIELD CA: Myofascial pain syndrome. 9:194B. *See also* erratum 11A:86
KIRKLIN JW: Surgery and the management of heart failure. 6:111
KLEINMAN MS*: Autoimmune chronic active hepatitis. 6:49
KOCH SJ*: Bacteriuria in patients with spinal cord injury. 3A:87. *See also* erratum 5A:16
KOH HK: Patient with a pigmented lesion. 10A:47
KOHLER TR*: Sub-Q heroin and cocaine addict with chills, fever, and trismus. 9:48
KOLSKI GB*: Sinusitis and asthma in childhood. 4:129
KOPELMAN RI*: (*see* Clinical Problem Solving). *See also* letter 9:16
KUBO SH*: Obese young woman with exertional dyspnea. 9A:88
KURLAND G*: Healthy newborn girl with absent breath sounds, bradycardia. 3A:83
LAMONT JT, KANDEL GP: Toxic megacolon in ulcerative colitis: early diagnosis and management. 9:102A
LASAGNA L: Pain and its management. 10:92C
LAWN RM*: Cloning of factor VIII and the genetics of hemophilia A. 5:111
LEBOW R, MEHTA J, DOSSETT BE Jr, ARCHIE D: One year of wheezing, cough after pneumonia. 2:22
LECKIE RS, WARFIELD CA: Acupuncture for pain relief. 12:361
LEHMAN LB: Two elderly men with reversible dementia. 8:36A
LELEIKO NS, BENKOV KJ: Nutritional support for hospitalized children. 4:179
LERMAN R: Malnutrition in hospitalized patients. 3A:22
LEVIN B*: Familial polyposis. 5:155
LEVIN RM: Sick euthyroid syndrome. 6:110C
LEVINE RA, WEYMAN AE: Echocardiography in ventricular and valvular disease I. 11:55
LINMAN JW: Myeloproliferative syndromes. 4:116A
LIPPMAN ME: Management of breast cancer with hormones and drugs. 5:119
LIPSITZ LA: Syncope in the elderly patient. 10A:33
LOKEY R*: Gas in the pelvis two months after laparotomy. 1A:40
LUEG MC, ANDING RH: Hypercholesterolemia: new values, new strategies. 1A:112
McCARTY DJ: Arthropathies associated with calcium-containing crystals. 10:109
McCUE JD: Doctors and stress: is there really a problem? (editorial) 3A:7
Medical and surgical use of prophylactic antibiotics. 7:167
MACDERMOTT RP, STENSON WF: Immunology of idiopathic inflammatory bowel disease. 11:97
MACDONALD JS*: Recurrent breast cancer: an integrative CPC. 1:158
MACKLEM PT: Respiratory muscle dysfunction. 3:83
MAMEL J, GOLDSCHMID S, BROWARSKY I, WILLIAMS C, ANDERSEN P: Malignant diarrhea from the Third World. 5A:132
MARMARELIS PZ*: Two gay patients with demyelinating disorders. 5A:54
MARTIN CA*: Recurrent breast cancer: an integrative CPC. 1:158
MASSARO D: Oxygen: toxicity and tolerance. 7:95
MASSEY B, KLEINMAN MS: Autoimmune chronic active hepatitis. 6:49
MASTERS WH: Sex and aging—expectations and reality. 8:175
MATZ R: Diabetes mellitus in the elderly. 3:195
Hypothermia: mechanisms and countermeasures. 1A:45
MECCA MA: Medical malpractice: can peer review be prophylactic? (editorial) 7:13
MEEROFF JC: Management of massive gastrointestinal bleeding. 5:154A, 5A:93
MEHTA J*: One year of wheezing, cough after pneumonia. 2:22
MESSERLI FH: Age factor in hypertension. 1:103
MIRVIS DM: Significance of a prolonged Q-T interval. 9A:45
MOORE GK, MUSHER DM: Polymicrobial bacteremia in a diabetic alcoholic. 11:40
MOORE MAS: Biologicals for cancer treatment: growth and differentiating agents. 2:69
MOROWITZ HJ: Cold couch and a warm heart. (essay) 5:31
Computers and brains. (essay) 6:217
Entreprepeurs. (essay) 10:34
Hardware, software. (essay) 9:33
Myasthenia gravis and arrows of fortune. 3:179
Overkill. (essay) 7:229
Pachyderms and peripatetics. (essay) 3:101
Sphinx's secret. (essay) 2:247
Stand-up conic. (essay) 1:60
Upping the ante. (essay) 4:279
Waving the requirements. (essay) 8:137
Whole and the sum of the parts. (essay) 11:45
Xictmd and Quetzalcoatl. (essay) 12:164
MOSTOW SR: Pneumonia complicated by bacteremia: therapeutic options. 12:105
MUNSON AK*: Addisonian crisis after thyroid replacement. 5:132
MURRAY BJ: Cushingoid changes in a 'healthy' woman. 1:114
Persistent vomiting after vigorous football game. 9:198
MUSHER DM: Infectious mass presenting as a tumor. 9:19
MUSHER DM*: Polymicrobial bacteremia in a diabetic alcoholic. 11:40
OGUR B: Pills + hostility: Rx for drug dependency. 6:110DD
OLDSTONE MBA: Distortion of cell functions by noncytotoxic viruses. 7:82
OLSEN ML*: Pulmonary series. (editorial) 1:8
O'MALLEY MS*: Clinical breast examination. 5A:80
ORME F: Don't call it junk. (essay) 8:45
PALDER SB, KOHLER TR, RAMSEY PG, BOYAJIAN M: Sub-Q heroin and cocaine addict with chills, fever, and trismus. 9:48
PANKEY GA: Infective endocarditis: changing concepts. 3:103
PARKS JH*: Recurrent renal calculi: causes and prevention. 3A:49
PEARSON RD*: Parasitic diseases of normal hosts in North America. 4:164A
PECK WA: Falls and hip fracture in the elderly. 12:72A
PICCIGALLO E: Acute and chronic liver disease in a young homosexual man. 12:88EE
PINALS RS: Persistent fever and arthralgia in adults. 11A:35
PISANESCHI JI*: AIDS: medical ethics grand rounds. 12:125
PIZZO PA: Management of pediatric cancer. 3:111
POOL M*: Tinea faciei ×3: cherchez le chat. 1:118Z

*Joint author

POOL SK*: Tinea faciei ×3: cherchez le chat. 1:118Z
PROCKOP DJ: Genetic defects of collagen. 2:125
PYERITZ RE*: Neurologic injuries in boxers. 5A:30
RABIN SM: Medical intervention in a nuclear accident. 11:137
RAFFIN TA*: Disabling dyspnea of sudden onset. 12:103
Young woman with swollen arm, dyspnea. 11A:13
RAM MD, DeSIMONE PA, PISANESCHI JI, JAFFE HW, ENGELBERG J: AIDS: medical ethics grand rounds. 12:125
RAM MD, THOMPSON JS, KILNER JF, WIEGERT HT: Good death: medical ethics grand rounds. 4:31
RAMSEY PG*: Sub-Q heroin and cocaine addict with chills, fever, and trismus. 9:48
REDDY KR: 'Acute hepatitis' with fluctuating symptoms. 10:124A
Liver abnormalities and persistent pain in limbs. 11A:96
RESNICK NM: Urinary incontinence in the elderly. 11:80C
REULER JB, COONEY TG: Pressure sores: when prevention fails. 10A:14 (1985). *See* erratum 1A:14 (1986)
REYNOLDS HY: Pathogenetic mechanisms in immunologic lung disease. 4:91
REZA R*: Healthy young woman in respiratory distress. 6:200
RICHEY HK, FENSKE NA, COHEN LE: Scabies: diagnosis and management. 2:124A
RIZK N*: Young woman with swollen arm, dyspnea. 11A:13
RIZK N, DUNCAN SR, RAFFIN TA: Disabling dyspnea of sudden onset. 12:103
RIZZO FJ*: Recurrent breast cancer: an integrative CPC. 1:158
ROBINSON RG: Post-stroke mood disorders. 4:83
ROCKLIN RE: Penicillin reactions: desensitize or discontinue? 1A:75
ROSENBERG RD, BAUER KA: New insights into hypercoagulable states. 3:131
ROSENBERG SA: Hodgkin's disease: no stage beyond cure. 8:91
ROTH M: Differential diagnosis of psychiatric disorders in old age. 7:111
RUBIN EH: Psychotropic therapy: special concerns in the elderly. 10:95
RUDERMAN NB, SCHNEIDER S: Exercise and the insulin-dependent diabetic. 5A:41
RUSH DR*: Geriatric polypharmacy. 2:109
SABIN TD: Dementia in the elderly: identifying reversibility. 11A:63
SALTZBERG S, CHARNOFF JA, GLATT AE: Aggressive treatment of an aggressive disease. 11:75
SANDROCK NJG, WARFIELD CA: Managing the pain of herpes zoster. 11A:81
SCARPA N*: Sinusitis and asthma in childhood. 4:129
SCHIFF ER: Ascites, cirrhosis, and congestive heart failure. 12:170
SCHIFFMAN SS: Use of flavor to enhance efficacy of reducing diets. 7:44H
SCHINDLER AM: Polyuria and polydipsia in a nine-year-old boy. 6:211
'Sugar in urine' in routine test of healthy teenage boy. 12:22
Very cool and very distressed 12-year-old. 9A:68
SCHINDLER AM, WIDZER SJ: Persistent jaundice and failure to thrive. 8:22
SCHLEDE C, ACOSTA R Jr: Left-sided weakness 10 months post-colostomy. 2:195
SCHNEIDER S*: Exercise and the insulin-dependent diabetic. 5A:41
SCHROEDER JL*: Medical revolutions and response times: 1986. (essay) 6:23
